

SPORTS PREMIUM REPORT – 2017-2018

In July 2017, the government confirmed their commitment to doubling the physical education and sports premium for primary schools. All primary schools will receive an increase in their PE and sports premium funding for the fiscal year 2017-2018. This income was generated by the Department for Education, investing £100 million from the soft drinks industry levy (sugar tax).

The level of funding received is based on the number of pupils recorded in the January 2017 school census. Schools with 17 or more eligible pupils receive £16,000 and an additional payment of £10 per pupil. The funding is paid directly to each school to enable them to make additional and sustainable improvements to the quality of PE and sport they offer.

At La Fontaine Academy, our allocation for 2017-2018 is £18,160.

Number of pupils and Sports Premium Grant (SPG) expected	
Total number of pupils on roll	216 (data taken from January 2017 census)
Total allocation of SPG	£18,160

Nature of support in 2017-2018				
Year group	Item/project	Cost	Objective	Outcome
All	Equipment for our new school site	£4,500	To develop a sustainable suite of equipment to enable us to deliver an effective PE curriculum as well as physical activities across our curriculum.	We have purchased some equipment to enhance our playtime provision. Sadly, our site wasn't delivered on time, so some of the money spent didn't have the desired impact.
All	Membership of local PE association (Bromley School Games)	£350	To benefit from specialist advice from some of Bromley's lead practitioners.	Limited impact due to staff capacity issues this year. Something to look into further in the future to fully benefit from membership links.
All	Swimming lessons beyond expected National Curriculum expectations	£3,750	To develop long-term habits for all children and instil in them a love of swimming. To develop a culture of excellence in swimming over time.	100% children feeding back positively about their weekly trips to the swimming pool. Confidence amongst all pupils in terms of early swimming skills. Emerging cohort of children developing competitive skills in swimming.
Year 3 children PE teacher	Fitness In – Health and Wellbeing Course – coaching support for children, staff, and families.	£300	To benefit from expert coaching on way to support children with physical literacy, mental health and general wellbeing.	Positive impact on our Year 3 children, particularly in terms of their understanding of how physical activities can positively benefit their

				mental/emotional wellbeing.
All	Installation of playground infrastructure to enhance playtime provision	£6,000	While based within a temporary structure within our school site, we need to install outdoor toilets to ensure that children can remain outside for the whole of their lunchtime play.	We felt that this was necessary due to the logistical challenges faced this year. Installing toilets outside
All	Upkeep of our sports field	£1,000	Having moved to our new site, we can now benefit from using a sports field.	As we are still settling, the use of our sports field is an area we need to further develop. The impact, though, has been very positive, enabling us to have PE lessons take place in an open area. After-school clubs have also taken place in the sports field.
